## FEATURES

- No hydrogenated fats
- Trans fats content less than 1%
- Proper fat composition to guarantee the specific characteristics for each type of product (plasticity for puff-pastry, flakiness for short-pastry, softness for leavened doughs, excellent incorporation of air and liquid for whipped creams and fillings)
- Excellent palatability
- Store in a cool, dry place (max 20°C)
- Shelf-life: 9 months

A line of vegetable margarines developed to meet the **needs of professionals** for the production of high-quality puff pastry, croissants, Danish pastries, biscuits, cakes and leavened doughs or whipped products.

The careful selection and deep knowledge of raw materials together with the use of cutting-edge production technology and **specialized formulas**, guarantee excellent performance and consistent quality. It is important to store these easy to use products according to recommendations in order to obtain the best performance and results.

In the case of puff pastries, a suggestion for making it easier to work is to lower the thickness of the margarine to approximately 6 mm before incorporating it into the dough and proceeding to fold.
